

Instructions

1. Print and cut out the cards below.
2. Give out a set of cards to each team (Works well with teams of up to 6 students)
3. Display the rules on the whiteboard (See accompanying PowerPoint)
4. Display each question in turn on the whiteboard.
5. Instruct students that when they see each question, to put the cards in order to make the correct formula.
6. Instruct pupils to put their hands up when they think they have the correct answer.
7. Display the answer to each question at the end of each round.
